Description

Fast and safe charging for your electric vehicle

The WBSH1-7 and WBSH2-7 charging wall boxes are the perfect solution for charging your electric vehicle quickly and safely. For correct operation it is sufficient to connect the type 2 connector and, thanks to the 5 meter cable, recharge the vehicle at a **power of 7 kW**. The SmartDHOME charging stations are part of the MyVirtuoso Home product range, thanks to which they can be **monitored and managed conveniently from the application** and **automated based on the production of the photovoltaic system**.

This model is equipped with a **practical and convenient screen** on which all the modes of the device are shown.
