Description

TTD USB Programmer enables quick programming and facilitates programming multiple thermostatic heads using the TTD101 port. The programmable key is compatible with the USB port of any PC (OS Windows). The cable can ONLY be connected to the programming port of the Ecodhome TTD101 heads. Never use to connect to the mini-USB port of any other device.

Download the software for programming TTD USB Programmer on <https://www.ecodhome.com/prodotti/testine-termostatiche-digitali/files-e-manuali/send/20-testine-termostatiche-digitali-ttd/7-software-ttd-usb-programmer-2014.html>

PROGmatic allows you to easily define by programming the on your computer, the timings, Comfort and Eco temperatures of the TTD101 thermostatic heads. The temperature profiles of the various environments can be easily stored on all TTD101 thermostatic heads. The thermostats automatically acquire the time and date.
