Description

Comfort.me DUO OpenTherm is ideal for **replacing the current thermostat** with a solution that **allows you to control the heating of your home** at any time of the day. Thanks to the dedicated APP it will be possible to manage the temperature at any time and in any place.

Why choose Comfort.me DUO OpenTherm?

- **Save up to 30%** on gas and electricity consumption.
- Compatible with all boilers that support OpenTherm technology.
- **Quick and easy programming** via application.
- Compatible with **Amazon Alexa** and **Google Assistant**.

Technical Information and installation methods

By purchasing the new **Comfort.me DUO OpenTherm** you will receive, in addition to the thermostat, also the **boiler control unit**. It has the task of receiving information from the chronothermostat and of **activating the connected device** by switching it on and off. The reception **range is about 30 meters** in open field.

Compared to the previous versions, Comfort.me DUO **has a dual installation**: wall and wireless. Thanks to the accessory supplied, the thermostat can be **positioned comfortably on any surface** of the house. The communication between the thermostat and the control unit, in both installations, takes place thanks to **wireless technology**.

Thanks to the application, you can:

- Manage **hourly and daily** schedules.
- **Increase or decrease the room temperature** at any time.
- **Adapt the temperature** to the external weather.
- **Turn the boiler on or off** when you are away from home, thanks to the **GPS function**.

Compatibility:

Currently, the boilers of the following manufacturers have been tested: **Atag, Baxi, Biasi Caldaie, Cosmogas, Ferroli, Fondital, Italtherm, La Bongio, Sime, Riello, Unical and Immergas**. They are therefore compatible with our Comfort.me DUO Opentherm version.
